## NASC Conference: Denver Colorado 2009!

The National conference in Denver was an amazing trip for all the new comers and veterans. We started off in Colorado's own US Air Force Academy and US Olympic Complex. From there we started our night by meeting and getting to know our squads. Next, we had the opportunity to head out to Manitou Springs for a day of whitewater rafting on the world's highest suspension bridge across the Royal Gorge. For our third day in the Mile High City we took a piece of history by driving up to the top of Pikes Peak 14,110 Feet above sea level with a temperature of 32 degrees below zero. We ate the Garden of the Gods and eat dinner at the Flying W Ranch.

Now at the end of our pre-trip we headed to Highlands Ranch High School to begin one of the most outstanding activities ever want to attend. As you first arrive you have the opportunity to trade Pennsylvania pins with other students from across the nation. There were three general sessions with speakers, such as Jonathan Sprinkles, who were in the process of grabbing. Other activities while attending this conference were well presented workshops; swap shops for information and University of Colorado at Boulder where we had fun participating in Recycling X-Games and the traditional Colorado night they had planned for us to participate in various fun activities like "A Taste of Colorado" and Passes to the park!

Underclassmen be a part of the 2010 NASC Conference that's heading out to Indianapolis Indiana! Were to go to another country for the amazing 76<sup>th</sup> National Conference. For more information check out the NASC website at [www.nasc.us](http://www.nasc.us)

### SUMMER WORKSHOPS

*Leadership is a major part of being on a Student Council, but what happens if you are improving upon those skills? You attend a gold summer workshop of course! This is a week at college campus either at Susquehanna or Grove City. Through out the week you are surrounded by other students from all over the state, previous camp attendees who are your color group members and other people who know exactly what you need to become a great leader. You spend the week in workshops dedicated to improving upon communication, group dynamics, or just in general. Is it the fun in just being in classes? Well that's when we come up with fun activities like a scavenger hunt where you learn PASC cheers to get motivated, or create a float in your color group. You can participate in the Olympics, hold a formal dance, and maybe even put on a PASC talent showcase to the community. Ms. PASC! This is a week that you wont regret and will never forget! Be apart of next year's conference (high school), Gold or Advanced Gold (high school) workshops by checking them out at [www.pasc.net](http://www.pasc.net)*

## STATES!!!

So the summers over...but that doesn't mean you have to miss out on all the fun! The 2009 PASC State conference will be celebrating Celebrity Councils on November 13-14. Registration begins in September at \$110 per person. The state charity for this year is the Four Diamonds Fund; remember to send in all proceeds from Mini-Thons at the conference. Some interesting activities for us plan to be an ice cream social, banquet, a dance, vendor fair, workshops, and advisor university. For more information check out their site at [www.celebrate2009.org](http://www.celebrate2009.org)
